Today's Programme

Virtual Meeting via Zoom
November 11, 2021, 12:30 P.M
Pangkat No. 5 Leader Rtn Ping Tan

Call to Order	Pres. Garrick Ang
Invocation	Rtn. Fr. Vincent Amores
National Anthem	Recorded
FOUR-WAY TEST	Rtn Anson Tan
Introduction of Visiting Rotarians & Guests	PP Ramy Garcia IV
Community Singing	Rtn Ray Armas
Wise or Otherwise	PP Bert Albano
Fining Moments	PP Toti Buhain
President's Time	Pres. Garrick Ang
Introduction of Guest Speaker	Rtn Richard Berganos

DEMETRIO BELONIO – CHAVEZ

Topic: Natural Family Planning

GUEST SPEAKER

Open Forum Adjournment	Pres. Garrick Ang
---------------------------	-------------------

Rtn Albert Mendiola
Emcee

Invocation

Almighty and ever-living God, at morning, noon, and evening we pray: cast out from our hearts the darkness of sin and bring us to the light of your truth, Jesus Christ, who lives and reigns with you and the Holy Spirit, God, for ever and ever.

Amen

THE FOUR-WAY TEST

of the things we think, say or do:

1. Is it the **TRUTH**?
 2. Is it **FAIR** to all concerned?
 3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
 4. Will it be **BENEFICIAL** to all concerned?
-

Object of Rotary

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

- First** : The development of acquaintance as an opportunity for Service;
- Second** : High Ethical standards in business and professions; the Recognition of the worthiness of all useful occupations; and the dignifying of each Rotarian's occupation as an opportunity to serve society;
- Third** : The application of the ideal of service in each Rotarian's personal, business and community life;
- Fourth** : The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

Song of the Day

RELEASE ME

Please release me let me go
Nalaman na ng misis ko
To live this life is magulo
Release me, nabisto na tayó

Dati ang ganda ganda mo
At ang sarap mong amuyin
Ngayon amoy salonpas na
Release me allergic na ako

Ubos na rin ang pera ko
Sa ka sustento sa iyo
Puro Gucci ang gamit mo
Namu mulubi na ako

I have found a new one now
Hindi high cost katulad mo
Kung mag shopping sa
Tiange lang
At ang trip nya ay iphone lang.

Hindi alam ng misis ko
Kasi batang bata ito
Kaya ang payo ko sayo
Release me and find some
Love again.

From the President

Pres. Garrick Ang

Greetings to all Pasig Rotarians and Guests!

Our club is sponsoring scholars at Rizal High School and Pamantasan ng Lungsod ng Pasig. We will have 70 in RHS and 30 in PLP, a total of 100 for this Rotary year. Each pledge is at Php6,000 per scholar and you may pledge as many as you want. So far, we already have around 31 pledges in our chat group. Thank you Chairman on Youth, PP Ed Lucero and PP John Javier for initiating this year's project, a Rotary area of focus of providing Basic Education and Literacy.

I like to call out again the challenge of PRID Raffy Garcia III for those who want to be a Paul Harris Fellow where you only need to pay half and he will use his points to fill the other half. And also for those who want to be charter members of the Polio Plus Society at USD100 dollars.

Pangkat 5 is introducing a new creative way of our community singing with a musician- composer friend of Rtn Albert Mendiola. Keep it coming.

I like to thank those who participated in the Takbo Kontra Polio 2.

Rtn Phillip Go is all over the Visayas with the campaign trail of Rtn Alex Lacson. With the deadline of the final list of candidates coming up and Covid-19 cases going down, we can expect exciting times ahead.

Keep safe and stay healthy, fellow Rotarians.

Garrick

Rotary Notes

PP Benny P. De Guzman

When we were viewing the attendance sheet of meeting last week, I was curious to see a Robert with a CEO after his family name. I thought we had a new recruit who cannot put off with this CEO title. But I soon realized he has every right to place CEO as he is of a cooperative that he made big, bigger and robust over the years. Not only in net worth but in all areas of operations. This Roberto has shown great stride in all his undertakings and even landing a seat in our House of Representatives. Are there lessons to learn? Can the team of our HOF/PP Conrad learn? Obviously, a few days in the operating room of Barangka Credit Cooperative will give us good pointers for our Luxid Rotary MicroFinance and Credit Cooperative.

And we can show other Rotary Clubs how to do it. Like our Medical Center for the indigents of this area that we are serving. Real benefactor PRID Raffy was unselfish in showing in his Facebook the names of some of us who were supposed to be benefactors but in truth he was behind those names. Other clubs are asking how to operate this center. Kung wala kayong Raffy at walang Doc Aga, forget it. Wishful thinking cannot be used if at all.

Not only in the Visayas but also on national TV, our Alex Lacson is all over. He was entrusted by leading presidential candidate Robredo to speak in behalf of their entire slate in an interview by no less than Tina Monzon Palma.

I wonder how many other club bulletins are as thorough as our Tinig? If you are keen on learning about Rotary, PP Jun Zafra is always up to date with his Rotary Information. Perhaps a local scene too as we can focus about our sister clubs in the process.

Rotary Notes

PP Benny P. De Guzman

Continuation 1.

And if we our word arsenal is lacking, PP Peter either introduces new words or old ones with their origins.

The idea of an out of town meeting even with families is a novel idea. The pandemic blues is telling on most of us. Perhaps this is a novel way of loosening up and meeting more of the new ones.

We must have some voice on national issues. Even small squeak ones. The scandal unearthed by Sen Dick Gordon is a small one compared to the Malampaya scandal that foreign-based Loida Nicolas-Lewis and an Atty Rodis exposed. Even in national elective posts, some moneyed groups are trying to deceive most of the people. I remember when Sen Pelaez was ambushed, he asked the Metrocom general. what is happening to our country.

Even our association of retired generals should go out and talk. The College of Governors of Rotary should talk on national issues even if we are apolitical.

Our distinguished member, Nesty Carolina is in the forefront in the long denied benefits of our veterans of the Second World War, long abandoned by the great USA for several decades to be given their just recognition. To show the partiality, Filipinos with US citizenship even gotten ten years after the war will get more than our true locals. US version of equality. As it would aptly be said, some are more equal than the others.

Remember, every opportunity you can push for our Alex in any group, please do so.

Walking the Avenues

PP Jun C. Zafra

THE POWER OF NUTRITION PARTNERS WITH ROTARY, OTHER ORGNIZATIONS FOR NEW MALNUTRITION PROGRAM IN ETHIOPIA

London, 1 November 2021: The Power of Nutrition announced on 1 November a partnership with Rotary International, the Eleanor Crook Foundation, and The END Fund, to fund a new multi-sector nutrition program in Ethiopia. By pooling resources and working through The Power of Nutrition, the funding partners' investments are being matched to create a five-year, \$30 million program.

Malnutrition is a major public health concern in Ethiopia. The African country has one of the highest global burdens of stunting - too short for age due to prolonged malnutrition - in children under five-years old; around 40%, compared to 22% globally. Despite progress to reduce malnutrition in recent years, prevalence levels remain high – with 5.9 million children affected by stunting in 2020 and 1.2 million affected by wasting - too thin for height due to severe malnutrition.

These levels are likely to increase due to COVID-19, the impacts of climate change, and prolonged conflict in the country. This year, UNICEF warned that more than 100,000 children in the Tigray region could die due to hunger-related causes by 2022.

This new program will address the factors malnutrition by combining multiple interventions in a holistic approach to strengthen systems and scale the coverage of high-impact health and nutrition services.

The program will incorporate several components, including the prevention and treatment of wasting, promoting infant and young

Walking the Avenues

PP Jun C. Zafra

Continuation 1.

child feeding practices, and integrating deworming, and Multiple Micronutrient Supplementation (MMS) into routine services for effective, sustainable approaches to improve women and children's overall health and life opportunities. It will also fund research on cutting-edge themes to improve the quality and coverage of interventions for wasting.

The program will be implemented by UNICEF and Action Against Hunger, working closely with the Government of Ethiopia's Ministry of Health, and pooling the expertise in public health, development, humanitarian work and government advocacy of the Eleanor Crook Foundation, The END Fund, and Rotary International.

"The effects of malnutrition on a child's physical and mental development can profoundly and permanently limit the trajectory of their lives. When an entire generation suffers from stunting and wasting, families and whole communities and nations are impacted by a catastrophic loss of potential," says John Hewko, Rotary International General Secretary and CEO. "As we've learned from our global effort to eradicate polio, we know that by leveraging each of our strengths, we can make a significant impact together to give children in Ethiopia access to nutrition and a chance for a full and healthy future."

Ellen Agler, CEO at The END Fund said: "Our collaborative nutrition partnership in Ethiopia is testament to what can be achieved when we leverage our collective resources to foster healthier communities. Neglected Tropical Diseases (NTDs) diminish nutritional absorption and lead to stunted growth. Conversely, malnourished individuals are more susceptible to NTDs which affect their ability to live healthy and productive

Walking the Avenues

PP Jun C. Zafra

Continuation 2.

lives. Our joint efforts to scale nutrition services and protect communities from the risks of NTDs through deworming, will help to unlock the full potential of underserved populations in Ethiopia."

Over the five years, the program will reach at least one million pregnant women and three million children with vital health and nutrition services. It is also expected to promote long-term improvements to the population's nutrition as well as socio-economic indicators by making Ethiopia's health and food systems more resilient and encouraging healthier, more productive communities.

The Power of Nutrition

The Power of Nutrition is a charitable foundation that unites businesses, governments, investors, non-profits, and change agents in a joint mission to end the cycle of malnutrition. Our innovative finance and partnership model multiplies nutrition investments to make resources go further than any organization could achieve alone.

We currently have 17 programs in 13 countries with high rates of malnutrition in Sub-Saharan Africa and Asia. Each is aligned behind national government plans, carefully designed to deliver impact at scale, and is based around a core set of evidence-based, high-impact interventions known to improve child, adolescent, and maternal nutrition.

To date, our programs have enabled over 60 million women and children to access essential nutrition interventions and services that are truly changing lives. [Learn more](#) about our work and how to partner with us.

Walking the Avenues

PP Jun C. Zafra

Continuation 3.

The Eleanor Crook Foundation

The Eleanor Crook Foundation is a growing U.S. philanthropy fighting to end global malnutrition through research, policy analysis, and advocacy. For over 20 years, the Foundation has worked to scale improved solutions to child malnutrition with the ultimate goal of saving children's lives and enabling them to excel in school, work, and beyond.

The END Fund

The END Fund is a private philanthropic initiative that exists to end 5 of the most prevalent Neglected Tropical Diseases. The fund efficiently puts private capital to work, advocating for NTD programs that are innovative, integrated and cost-effective. It facilitates strong partnerships with the private sector, government partners, and local implementing partners to collaboratively support national disease programs. This is done through a proven implementation model that is tailored to meet the needs of individual countries, with the view to fostering healthier communities, protected from the risks of NTDs. Since its founding in 2012, along with partners, the END Fund has distributed over 1 billion treatments across 31 countries, performed over 43,000 blindness and disability-preventing surgeries; and trained nearly 3.5 million health workers to pre-empt and treat neglected tropical diseases.

Rotary International

Rotary brings together a global network of 1.4 million volunteer leaders in more than 46,000 clubs in over 200 countries who are dedicated to tackling the world's most pressing humanitarian challenges. Their work improves lives at both the local and international levels, from helping those in need in their own communities to working toward a polio-free world.

Our Guest Speaker

DEMETRIO BELONIO - CHAVEZ

Personal Profile :

Address : # 4 Narra St., Vista Real Executive Village,
Batasan Hills, Quezon City

Birthdate : December 02, 1962

Birthplace : Barotac Nuevo, Iloilo

Religion : Roman Catholic

Status : Married

Spouse : Eng'r. Sylvia Laborte - Chavez

Children : Dennis Noel L. Chavez - 28 years old – Structural
Design Engineer (UP – Diliman)

Dale Stephen L. Chavez - 24 years old – Medical
Student @ UST College of Medicine

Dave Samuel L. Chavez - 22 years old – BS in
Industrial Engineering @ UP - Diliman

Diane Stephanie L. Chavez -17 years old –
Architecture Student @ UST College of Arch.

Father's Name : Sta. Cruz Palma-Chavez (deceased)

Mother's Name: Felicitas Belonio-Chavez (deceased)

Educational Background :

- Barotac Nuevo Elementary School - Graduated 1975 - With Honors
- Barotac Nuevo National Comprehensive High School –

Our Guest Speaker

Continuation 1.

Graduated 1979 (Class Valedictorian/President)

- University of Santo Tomas - Graduated 1984 - B. S. in Civil Engineering (Dean's Lister)

Professional Profile :

- Registered Civil Engineer - Passed the Board Exam for Civil Engineers on Nov. 1984
- Structural Steel Detailer for more than 37 years (1984 to present)

Employment Records :

- Sept. 1984 - August 1989 - South Pacific Detailing, Inc. (Ortigas, Pasig City) Structural Steel Detailer & Checker
- Sept. 1989 - October 1991 - BDS Steel Detailing Party Limited (Melbourne, Australia) Structural Steel Detailer & Checker
- March 1993 - August 1993 - BDS Steel Detailing Private Limited (Singapore) Project Manager
- Sept. 1993 - July 1995 - Kepphil Designing & Detailing, Inc. (Makati City) Operations & Marketing Executive
- August 1995 – Present - VTS Technical Group Company President/CEO (Director/Owner) Vibrant Technology Solutions Inc.
- President/CEO (Director/Owner) June 2005 - August 2018 -- HSD Vietnam Party Limited (Hanoi, Vietnam) Director/Partner

CURRENT POSITION:

Our Guest Speaker

Continuation 2.

Chief Executive Officer (CEO)/President of the following companies:

- 1) VTS Technical Group Company
- 2) Vibrant Technology Solutions Inc.
- 3) CFCR Office Leasing
- 4) Candraft – VSI Inc.

COMPANY PROFILE:

VTS Technical Group Company

- Established in August 1995 with 8 regular staff
- Currently employs 50 regular staff (engineers/architects)
- In partnership with several US, Canadian, Australian Companies

Vibrant Technology Solutions Inc.

- Established in February 1999 with 6 regular staff
- Currently employs 30 regular staff (engineers/architects)
- Exclusive Re-Seller in the Philippines & in Vietnam of TEKLA Design & Engineering Software(s) from FINLAND
- In partnership with US, Australian, Japanese & European Companies

HSD Vietnam Party Limited

- Established in January 2005 with 6 regular staff
- Exclusive Re-Seller of TEKLA Design & Engineering Software(s)
- In partnership with Vibrant Technology Solutions Inc., Australian & Japanese Companies

MEMBERSHIP IN ORGANIZATIONS:

Couples for Christ (CFC)

- Metro Manila - North 'B' Sector Coordinator for the **Pro-Life**

Our Guest Speaker

Continuation 1.

Ministry

- Responsible Parenthood/Natural Family Planning (RP/NFP) Services

WOOMB International

- Accredited NFP Trainor/Teacher of the Billings Ovulation Method (BOM)
- **Foundation For the Fullness & Integrity of Creation (FFIC)** Trainor/Teacher of the BOM of NFP.

Parish Pastoral Council Chairman of the St. Michael the Archangel Parish

- Diocese of Novaliches

Family & Life Commission – Ass't. Lay Couple Coordinator

- Diocese of Novaliches

Vista Real Executive Village Homeowner's Association Inc. (VREVHAI)

- President (2009-2010) & currently **Vice President & Chairman of the Construction Committee**

AWARDS/HONORS:

- Consistent honor student from Elementary & High School
- Class Valedictorian @ BNNCHS Graduating Class of 1979
- Batch 1979 Class President
- Dean's Lister @ the College of Civil Engineering – University of Santo Tomas (UST)
- ONE OF THE MOST OUTSTANDING MEN and WOMEN of BAROTAC NUEVO (June 2009)
- Accredited NFP B.O.M. Teacher of WOOMB International

Tinig Tidbits

By: PP Peter M. Javier

ORIGINS

BALLPOINT PEN – The first patent on a ballpoint pen was issued on October 10, 1888 to John J. Loud, an American leather tanner and shoemaker. On the patent application, Loud said that such a pen would be excellent for writing on leather and fabric and useful for marking on rough surfaces such as wood and coarse wrapping paper.

CALCULATOR – In 1642, Blaise Pascal, a noted French mathematician, built the first mechanical adding machine or calculator. It was called the Pascaline and was based on a design described by Hero of Alexandria in the 1st century C.E. to figure a carriage's traveling distance.

CELL PHONE – On April 3, 1973, on the streets of New York City, Martin Cooper of Motorola's Communications Systems Division made the first public telephone call placed on a portable cellular phone. He called his rival, Joel Engel of AT&T's Bell Labs. The first commercially marketed cell phone was 1983's Motorola DynaTAC 8000X which cost \$3,500.

COMPUTER – The Antikythera Mechanism dates back from the first century B.C.E. This first computer was discovered in 1900 in an ancient shipwreck near the island of Antikythera, Greece. This device has been proved to be an analog computer of sorts for modeling the solar and lunar cycles and predicting eclipses.

COMPUTER MOUSE – The world debut of the first computer mouse was on December 9, 1968 at a conference of 1,000 or so computer professionals. The inventor, Douglas C. Engelbart was

Tinig Tidbits

By: PP Peter M. Javier

Continuation 1.

issued a patent on November 17, 1970 for his computer mouse, so named because the “tail” came out the end.

CYBER CAFÉ – In 1988, the Electronic Café International opened in Sta. Monica, California, founded by two American video artists. The first cyber café offered a coffeehouse menu, computers with modems, other telecommunications equipment and artistic events. -

E-MAIL – In late 1971, computer engineer Ray Tomlinson succeeded in sending a message from one computer to another via a network connection. The computers were joined with an ARPAnet connection, the basis of the modern Internet. For a marker to designate the network host, he chose the @ because it wasn't used in the spelling of a person's name. The @ was already a standard key on the older computer keyboard and Tomlinson did not have to type Shift+2 to get it.

ERASER – Around 1752, the first notable eraser was used at the eminent Academie Francaise. The eraser was made of a natural substance called *caoutchouc gum*, an elastic, gummy substance obtained from the milky sap of euphorbiaceous trees.

LAPTOP COMPUTER – In 1968, the first concept of a laptop computer was the Dynabook, created by Alan Kay. Kay's vision was a notebook-size wireless portable computer actually for children more than for adults. The Dynabook never got past sketches and a cardboard model. Introduced in 1982, the GRiD Compass 1100 was likely the first commercial computer created in a laptop format.

Tinig Tidbits

By: PP Peter M. Javier

Continuation 2.

PENCIL – Modern pencils are the descendants of ancient writing instruments. As early as 500 B.C.E., the Romans wrote with a thin metal rod that left a light but readable mark. Some of these early rods were made from a kind of lead. That made the Romans history’s first people to use a “lead” pencil. It’s not certain what culture may have called their writing rod a *pencilus*, Latin for “little tail”. But it’s definite that *pencilus* is where our modern *pencil* comes from.

PHOTOCOPIER – On October 22, 1938, Chester Floyd Carlson, a patent attorney and part-time inventor, made the first electro-photographic image with his photocopier apparatus. Carlson patented the process, which he called xerography, on October 6, 1942.

WEBSITE – On August 6, 1991, the first website, nxoc01.cern.ch, was launched. It was built at CERN, initiated by Tim Berners-Lee and Robert Caillian, developers of the World Wide Web. The first website provided an explanation of what exactly the World Wide Web was and provided instructions on how you could own a browser and set up a web service.

WORD PROCESSOR – Word processing as it’s known today, was first brought about in 1964 with IBM’s MT/ST typewriter. IBM’s strategy was first to market the phrase *word processing machine*. The MT/ST used magnetic tape, typed data could be edited without having to retype the whole text. Info could be stored on the tape, corrected as needed, and reprinted as many times as desired. The tape could also be erased and reused for other word processing.

Tinig Tidbits

By: PP Peter M. Javier

Continuation 3.

WORLD MAP – Around 540 B.C.E., Anaximander, a philosopher from Miletus, now in Turkey, created the first map of the known world. His innovation represented the entire inhabited land known to the ancient Greeks. The map was circular and showed three continents – Europe, Asia and Libya (the part of the then-known African continent) – with oceans surrounding the circular map’s boundary. Three spokes of water – the Nile River, the Phasis River (now called the Rioni) and the Mediterranean Sea – all emptied into the oceans surrounding the map’s perimeter.

***DECLARATION OF ROTARIANS
IN
BUSINESS AND PROFESSIONS***

As a Rotarian engaged in a business or profession, I am expected to:

1. Consider my vocation to be another opportunity to serve;
2. Be faithful to the letter and to the spirit of the ethical codes of my vocation, to the laws of my country, and to the moral standards of my community;
3. Do all in my power to dignify my vocation and to promote the highest ethical standards in my chosen vocation;
4. Be fair to my employer, employees, associates, competitors, customers, the public and all those with whom I have a business or professional relationship;
5. Recognize the honor and respect due to all occupations which are useful to society;
6. Offer my vocational talents: to provide opportunities for young people, to work for the relief of the special needs of others, and to improve the quality of life in my community;
7. Adhere to honesty in my advertising and in all representations to the public concerning my business or professions;
8. Neither seek from nor grant to a fellow Rotarian a privilege or advantage not normally accorded others in a business or professional relationship.

ROTARY CODE OF CONDUCT

As a Rotarian, I will

1. Exemplify the core value of integrity in all behaviors and activities
2. Use my vocational experience and talents to serve in Rotary
3. Conduct all of my personal, business, and professional affairs ethically, encouraging and fostering high ethical standards as an example to others
4. Be fair in all dealings with others and treat them with the respect due to them as fellow human beings
5. Promote recognition and respect for all occupations which are useful to society
6. Offer my vocational talents: to provide opportunities for young people, to work for the relief of the special needs of others, and to improve the quality of life in my community
7. Honor the trust that Rotary and fellow Rotarians provide and not do anything that will bring dis-favor or reflect adversely on Rotary or fellow Rotarians
8. Not seek from a fellow Rotarian a privilege or advantage not normally accorded others in a business or professional relationship
