### NOW WE'RE TOGETHER

*(Melody: Getting To Know You from King and I)*

Now we're together

**Happy** to know we're Rotarians

Getting together

*Ready To Serve To Change Lives*

**Happy** to know that

**Doing** it our way but nicely

**Service Above Self's** our cup of tea

Now we're together

Haven't you noticed

**We all feel good and cheery**

Because of all the **wonderful** and **good**

**Things** we keep on doing

Day by day

*(Lyrics adaptation #2 by PP Peter)*

## From the President

**Pres. Garrick Ang**

Dear Fellow Rotarians and Friends,  
Good Day!

This is the second to the last Club meeting that I will preside over and today, we will have Vice Mayor-Elect Dudut Jaworski as our speaker and he will be inducted after his talk. Timely, as incoming Public Image Director Ato Basco already started the ball rolling with his coordination with the Pasig City Health Officer. We will be expecting more projects in our community in 2 of Rotary's areas of focus. These are maternal and child health and disease prevention and treatment, both truly service above self projects.

Next week on July 30, 2022, we will be having our Club General Assembly meeting. Your President would like to thank this Rotary year's Board members and officers, project partners, Rotarians and friends for making this Rotary Year truly Life-changing.

Please note that on July 1, 2022, we will have our District Handover and Induction Ceremonies starting at 3:30 pm at Cove Manila in Okada Manila. The early bird rate is extended until June 25, 2022 and discounted room rate at the hotel is also available.

The Life-Changing Awards Night will be on July 9, 2022 starting at 4:00 pm at Novotel Manila and will be hosted by the Rotary Club of Valle Verde. Our Club Induction and Handover will be on July 21, 2022 at 6:00 pm at the Clubhouse of Valle Verde 5. Best wishes to all the incoming board members and officers.

Mabuhay ang Rotary Club of Pasig!

Enjoy the rest of the week.

Thank you!

Garrick

## Rotary Notes

PP Benny P. De Guzman

Boss Peter changed the time frame for submitting our column by a good 24 hours. But having a sked for years has a telling effect on time frames. Anyway, with two issues to go a small sacrifice to end years of an arduous task for the sake of continuity even during the pandemic. When readers read, it seems easy to tell of going ons within our club. But not during the pandemic with nothing to write about. It was hard to focus on previous events and relay as if they were current.

The attendance improved a bit but a bit is not worth the efforts exerted by the more dedicated leaders. It seems that our valued Pangkat system, the envy of others, is not well oiled already. Will the centerpiece be on the current Pangkat only? Kaya be biglang regular si Dir Sonny? After this month, scarce ulit siya? Aside from taking good early morning shots, Rtn Anson is keen on bringing youth to our club by inviting youthful recruits.

Many of our members are still scared of the Covid kahit may booster shot na as they cannot still join us. Imagine when they were blocked off when we met at the Baras room. Akala intentional na hindi sila sinali.

I cannot imagine that without the pandemic, our district maintained zoom clubs. Imagining that their first fellowship was by zoom. Zoom-men plank! Failed. What can you expect!

I continue to praise PP Peping that despite his being in a wheel chair, he makes it a point to regularly attend. Imagine those with flimsy reasons not to able to join us?

We had a very good club reaction to the meetings last two weeks in a row as super Rotarian Flor was a second guest speaker when

## **Rotary Notes**

**PP Benny P. De Guzman**

*Continuation 1.*

he gave his reaction, first in the form of a question last week and his first hand knowledge on the topic. The other week he gave an expert's view on the stem cell and his mastery on the matter. Kaya super Rotarian si Flor as he is not concerned only on the medical aspect of our community but in the totality of community life. Well balanced, well meaning.

This early IP Bong is taking care of attendance concerns. Aside from constant reminder of 100% attendance during our induction, he is making sure he has got the proper induction in order. Usually, he should prepare for his inaugural address and PN Adolf should be running the entire gamut of the induction.

We had a lady visitor with a unique project on cardiac care last week. Not that she comes from Unilab which reared my corporate life foundation, but it's a timely concern for most of us. Too bad that I missed her hand out but anything cardiac is a concern for all. Once nag fail ito, dead ball kaagad.

Next week is the traditional send off by outgoing President Garrick and his team. Sabay sila ni President Duterte mag reretire. Garrick, you did well even if most of your term naka lock down. That is the mark of a good president and a good club. Well done, President Garrick. If there will be some steak, well done ang sa akin. I will join you in the good bye. Rotary Notes, the newcomer will use another title.

## EXPLORING SPACE, ERADICATING POLIO: ROTARY CONVENTION SPEAKERS PUSH TO REACH NEW HORIZONS

Empower girls. End polio. Embrace new challenges. Speakers who urge us to see the world in new ways and take action to change people’s lives are inspiring participants at the 2022 Rotary International Convention in Houston, Texas, USA.

Rotary’s annual gathering always includes fascinating and motivating speakers who are making an impact in the world. This year’s world-class lineup features:

- **Dr. Hamid Jafari**, director of polio eradication for the World Health Organization’s Eastern Mediterranean region. He leads the efforts in an area that includes Afghanistan and Pakistan, the only two countries where wild polio remains endemic. Jafari previously led the Global Polio Eradication Initiative (GPEI), in which Rotary is a partner.
- **Anbita Nadine Siregar** is a founder of Generation Girl (Yayasan Generasi Maju Berkarya), an Indonesian-based organization that introduces young women to science, technology, engineering, and math (STEM) and empowers them to become leaders. Siregar has a background in computer science and social entrepreneurship and has a passion for technology.
- **General Charles Duke** (USAF Ret.) was the Lunar Module pilot on the fifth moon landing during the Apollo 16 mission. He is one of only 12 humans ever to land on the lunar surface, the 10th man and the youngest person to walk on the moon.

PP Jun C. Zafra

*Continuation 1.*

Fifty years ago in April of 1972, he and crew mate John Young explored the lunar highlands. Following his career as an astronaut, Duke has been a businessman and public speaker.

- **Gingger Shankar** is a filmmaker, musician, composer, and activist. She has worked with former U.S. first lady Michelle Obama and film director Ava DuVernay. Through her art, she champions educating and empowering girls and protecting the environment. She is the founder of Little Indian Girl Productions and works to amplify diverse and rarely heard voices.
- **Orion Jean**, an 11-year-old from Texas, wants to make the world a kinder place. He was named TIME magazine's Kid of the Year for 2021 for using \$500 that he won in the National Kindness Speech Contest to create Race to Kindness. Through that organization, Jean has donated toys and meals for families. He is now collecting books for children who don't have them at home.

After two years of connecting virtually because of COVID-19, Rotary members have been excited to Discover New Horizons in person at the George R. Brown Convention Center. Many others have joined the sessions online. The convention brings together members from around the world to learn from each other, share their differing perspectives, and build new friendships.

During breakout sessions, participants have the chance to develop their leadership skills and get inspired with new ideas for projects, fundraising, and strengthening membership. They take part in discussions about increasing diversity, engaging young leaders, and developing sustainable projects that can expand to serve more people and change more lives.

legislator. He had a very aggressive scholarship program during his term for it is his belief that education is the greatest equalizer.

**Dodot** is an entrepreneur, venturing in land development, agriculture, education, construction, communications, hotel and resort, and many other business endeavors. Because of his past experience and broad exposure in different industries, he has been asked to manage and sit on the board of several privately owned corporations.

Heads of sports of the 45 country Olympic Council of Asia attended the event, as well as dignitaries from the world over to concelebrate this historic centennial celebration.

**Dodot** believes that one does not necessarily need to be in a government position to serve toe country we love.

## SOME INCREDIBLY MINDBLOWING FACTS

1. People born in the 90s have lived through three decades, 2 centuries and 2 millennia, and most are not even thirty yet.
2. An average cloud is as heavy as 100 elephants, while an average storm cloud weighs as much as around 200,000 elephants!
3. Your age is simply the number of circles you've made around the sun.
4. In your lifetime, you'll meet around 16 murderers without even realizing it.
5. You can work out how many days each month has by using your knuckles. Simply make a fist, and count the months by using you knuckles and the gaps in between them. Each knuckle is a month with 31 days and each gap contains 30 or less. Once you reach the last knuckle of one fist, move on to the first knuckle of the other one, so that July and August are both counted on knuckles.
6. In a single day, your heart makes enough energy for a 19-mile truck trip.
7. Your sense of smell deactivates while you sleep.
8. Two 30 cm pizzas are still smaller than one 43 cm pizza.
9. There is a pain killer in our saliva, called opiorphin, which is 6 times more powerful than morphine.

10. The person sitting closest to you on the left is actually the farther from you on the right.
11. We need oxygen to live, yet it is also responsible for our aging and ultimately our death.
12. Every year, 98% of you changes, since your atoms end up getting renewed.
13. If a pregnant woman damages her internal organs, her baby will send over some stem cells to help speed up the healing process.
14. In a day, our brain makes enough energy to power a 10-watt light bulb.
15. New babies typically cost their parents around 750 hours of sleep in their first year.
16. By the time you reach 60, you will have lost around half of your taste buds.
17. Every time you shuffle a deck of playing cards, you are most likely the first person ever to have created such a sequence.
