## Song of the Day

### My Way

*Song by Frank Sinatra*

And now the end is here  
And so I face that final curtain  
My friend I'll say it clear  
I'll state my case, of which I'm certain  
I've lived a life that's full  
I traveled each and every highway  
And more, much more than this  
I did it, I did it my way

Regrets, I've had a few  
But then again too few to mention  
I did what I had to do  
I saw it through without exemption  
I planned each charted course  
Each careful step along the byway  
And more, much more than this  
I did it, I did it my way

Yes, there were times I'm sure you knew  
When I bit off more than I could chew  
But through it all, when there was doubt  
I ate it up and spit it out  
I faced it all and I stood tall and did it my way

## **Song of the Day**

*Continuation 1.*

I've loved. I've laughed and cried.  
I had my fill; my share of losing  
And, now as tears subside,  
I find it all so amusing.  
To think I did all that;  
And may I say – not in a shy way,  
Oh no, oh no not me,  
I did it my way

For what is a man, what has he got?  
If not himself then he has naught  
To say the things that he truly feels  
And not the words of someone who kneels  
The record shows I took all the blows  
And did it my way  
Yes it was my way.

# From the President

**Pres. Bong Paloma**

Greetings, RCP!

It is wonderful to greet you once more, RCP! We are now down to my last two meetings, and on July 3, we will be transitioning to new leaders. Without a doubt, the past 525,949 minutes have been nothing short of memorable, fulfilling, and exceptional. We created and participated in various service projects, fellowships, and activities during my time as President, and I will always treasure those experiences. Thank you for allowing me to serve, and I hope I was able to meet your expectations.

Last week, we had an enlightening talk from Mr. Chinkee Tan, who shared his CHIP (Create, Handle, Invest, and Protect) secret to achieving financial independence and securing our wealth. Let us keep in mind the practical lessons and techniques he shared.

Today, we are privileged to have Ms. Maria Theresa D. Villanueva, Director of University Communications and Marketing and Communications Office of the Ateneo De Manila University, who will share with us the Myths and Facts of Digital Advertising during this era of Misinformation and Fake News. I am positive that we will learn a lot from her insights.

I would like to request that all RCP members pay their membership dues in advance to ensure we have enough funds for our upcoming activities. You can choose to pay in full or on

Thank you for joining us today! I look forward to seeing all of you on June 28 and July 3.

Stay Strong and Healthy, RCP!

From our PRID/HOF Raffy are some basic golden rules of what we must do as basics to be better citizens. It is another venture similar to the one of the best seller of our Rtn Alex Lacson and the impact is just as great. Much more, daughter Nana Guzman has endorsed it fully. The golden thoughts of Raffy as an elder statesman in the world of Rotary are all with rich meanings. One of his latest, "Life is better when you are happy...but life is best when other people are happy because of you" and "People may not reward or thank you for what you do...but when God is

I thought of giving two endorsements for a better us and you can refer to others when Jun Lao made his request to endorse his on line undertaking and what PRID/HOF Raffy endorsed to many of us on the basics.

Our club has 3 Arch Klumph member because of Raffy. I am amazed as to the number in other clubs.

### **ROTARY AWARDS US\$2 MILLION GRANT TO FIGHT CERVICAL CANCER IN EGYPT**

United to End Cervical Cancer in Egypt, an initiative to reduce the number of cases while raising awareness and improving women's access to preventive care, is the recipient of Rotary's third annual Programs of Scale award. Rotary International President Jennifer Jones announced the grant at the global network's annual convention in Melbourne, Australia.

The four-year program in and around Cairo will vaccinate more than 30,000 girls ages 9-15, provide cancer screenings for 10,000 women, and launch a public awareness campaign to reach 4 million people.

“As a cancer survivor, I am proud that we are supporting this project — and especially gratified that we are taking such an important step to support women's health,” Jones said. “By providing preventive care, we can empower women and girls with the knowledge and resources they need to stay healthy and thrive. This program is further proof that Rotary is capable of creating large-scale, meaningful projects that create lasting change.”

Cervical cancer is considered one of the most preventable cancers. It's caused primarily by the human papillomavirus (HPV), the most common viral infection of the reproductive tract. Ninety percent of deaths from cervical cancer occur in

low- and middle-income countries, where cancer screenings and routine HPV vaccinations aren't available and cultural misconceptions may deter women from seeking care.

A 2021 report from the World Health Organization showed that less than 10% of women in Egypt had cervical cancer screenings in the previous five years and, of those diagnosed with the disease, more than half die from it.

“By increasing awareness and promoting preventive care for cervical cancer, we can save lives and create healthier communities in Egypt,” said Amal El-Sisi, a professor of pediatrics at Cairo University and a member of the Rotary Club of El Tahrir. “As we gather data for the first time on the HPV and cervical cancer burden in the greater Cairo area, we are gaining crucial insights into the overall prevalence in Egypt.”

In addition to increasing awareness of cervical cancer and improving medical services for women, the program will make progress toward the goals set by WHO's Cervical Cancer Elimination Initiative. This global effort aims to vaccinate 90% of girls, screen 70% of women, and treat 90% of women who have precancerous or cancerous cells. It aims to meet those targets by 2030.

United to End Cervical Cancer in Egypt was initiated by the Rotary Club of El Tahrir, supported by Rotary clubs in and around Cairo and modeled after a presidential initiative on breast cancer that increased women's visits to clinics and now offers routine breast health services. It has assembled a coalition

of partners that include the Egyptian Ministry of Health and Population, the Egyptian Society for Colposcopy and Cervical Pathology, and the Sona3 El Khair Foundation.

The Rotary Foundation awards one US\$2 million Programs of Scale grant each year to an evidence-based program that aligns with at least one of Rotary's causes and is ready to be expanded to create larger-scale change. The programs are sponsored by Rotary members in collaboration with local communities and partner organizations that offer expertise and support.

The other finalist this year was the Digital Interactive Classrooms program. It aims to improve the quality of education in Panama by introducing new technology in 230 classrooms.

## Our Guest Speaker

### ***MARIA TERESA D. VILLANUEVA***

Before we get into the professional life of our guest speaker, I would like everyone to know that she is a very avid golfer! Surely, every RCP golfer will be eager to join her in the fairway for a competitive yet friendly game!

**Matec**, as called by many, is a marketing and advertising veteran whose career spans over 35 years handling the branding, and marketing needs of local and international leader brands. She is currently the Director for Marketing and Communications at the Ateneo de Manila University.

A business major in college, an advertising career was not immediately on her sight – thinking that the profession is traditionally been an old boy’s club. But a string of unexpected incidents led her to the industry and she grew to love it – saying that is the biggest and best accident in her life! She also shared that the secret to her longevity in the industry was partnering with the right and smart people because it brings results!

Prior to joining Ateneo, Matec was the Chairman and Chief Executive Officer of Publicis Manila. She played a vital role in leadership in shaping Publicis Manila and has led a strong team responsible for the continued growth of the agency. She has

mentored dozens of people in the industry at all levels in the course of her long career. In addition to being dedicated to managing the affairs of the agency and helping grow the business of its clients, Matec has provided valuable time to serving, in various management capacities, the 4A's, AdBoard, and Ad Summit Pilipinas.

Since advertising is the **first and oldest profession** known to man, from a Biblical perspective, it is also the most enduring work for Matec; in her words – “*the fascination with advertising never ends; it only ends the world ends, and there’s no one left around to buy or listen to us.*” When that time comes, humankind has made full circle.

My fellow Rotarian, let us all warmly welcome Ms. Maria Teresa Villanueva!

## Turn the Other Cheek

The passage from the Gospel according to Matthew, “When someone strikes you on your right cheek, turn the other one to him as well” (Matt. 5:39)”, seems to mean a negative way of perceiving as submitting to your enemy rather than challenging him or her. But did Jesus really mean that?

If we look into the Jewish context during the time of Jesus, we may be able to understand what this passage mean. According to Fr. Manoling Francisco, SJ (who happened to be one of my former theology professors in Loyola School of Theology in Ateneo de Manila), the Jewish society followed hierarchical values based on class and family, similar to the Indian caste system. In all aspects of Jewish life, there were rules governing different classes and family even punishment. For example, if a child wronged his/her father, the father slapped the left cheek of his son or daughter using the open palm of his right hand. But if a slave from a poor family wronged his master, then the master slaps the right cheek of the slave by using the forehand of his right hand. Since the forehand is more bony, the slap of it would be more painful than the open palm. In short, even in punishment there was discrimination.

Thus, Jesus taught to offer your left cheek if you’ll be hit on your right cheek because in doing so you’ll force your aggressor to punish as an equal. In effect, you’ll fight back

against him or her without resorting to violence. With that, we can understand that Jesus advocated “active nonviolence”, responding to any conflict proactively without hurting anybody.

In these uncertain times, may we respond to any challenge proactively without resorting to violence.
