**** Community Economic and Development Month ****

Invocation

Heavenly Father, as we thank You for all the blessings we received from You, we also pray to You for guidance. Forgive us our sins especially sins against integrity. Heal our brokenness. And restore our dignity as human persons. This we ask through Christ our Lord.

Amen.

From: Rtn. Fr. Kell Ortega

THE FOUR-WAY TEST

of the things we think, say or do:

4. Is it the **TRUTH?**
2. Is it **FAIR** to all concerned**?**
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS?**
4. Will it be **BENEFICIAL** to all concerned**?**

Object of Rotary

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

First : The development of acquaintance as an opportunity for Service;

Second : High Ethical standards in business and professions; the Recognition of the worthiness of all useful occupations; and the dignifying of each Rotarian's occupation as an opportunity to serve society;

Third : The application of the ideal of service in each Rotarian's personal, business and community life;

Fourth : The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

Song of the Day

SHE

(by: Elvis Costello)

She may be the face I can't forget
A trace of pleasure or regret
May be my treasure or the price I have to pay
She may be the song that summer sings
May be the chill that autumn brings
May be a hundred different things
Within the measure of a day

[Verse 2]
She may be the beauty or the beast
May be the famine or the feast
May turn each day into a heaven or a hell
She may be the mirror of my dreams
A smile reflected in a stream
She may not be what she may seem
Inside her shell

[Instrumental Bridge]

[Verse 3]
She, who always seems so happy in a crowd
Whose eyes can be so private and so proud
No one's allowed to see them when they cry
She may be the love that cannot hope to last

Song of the Day

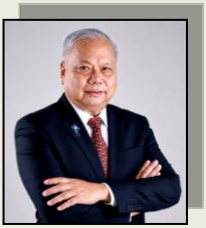

Continuation 1.

May come to me from shadows of the past
That I'll remember till the day I die

[Verse 4]
She may be the reason I survive
The why and wherefore I'm alive
The one I'll care for through the rough and ready years
Me, I'll take her laughter and her tears
And make them all my souvenirs
For where she goes, I've got to be
The meaning of my life is she

[Outro]
She
Oh, she

From the President

Pres. Jun Zafra

LISTENING TO BOTH SIDES: THE HEART OF RESPONSIBLE DEVELOPMENT

Rotary Theme - Community Development and Livelihood Month

Dear Fellow Rotarians and Friends,

Last meeting, we opened an important conversation on the **Pax Silica Project** by listening to its cons and concerns. We thank our speaker for enlightening us on the environmental, economic, and community questions that we as responsible citizens must ask.

This coming meeting, we continue the dialogue this time, on the **pros and benefits** of the same project. Every development story has two sides. If there are risks to understand, there are also opportunities to explore jobs, livelihood, local revenue, technology transfer, and community investments that may uplift our people.

As Rotarians, we do not take sides hastily. We **listen, we learn, and we lead with balance**. Our role is not to argue, but to provide a platform where truth, transparency, and the welfare of the community come first.

This is what Economic and Community Development is all about ensuring that progress does not leave people behind.

From the President

Pres. Jun Zafra

Continuation 1.

Whether we question or we support, our goal remains the same: a Pasig community that is informed, empowered, and self-reliant.

I also take this opportunity to once again thank our **LUXID Rotary Microfinance Cooperative** family. While big projects are debated, LUXID quietly does the work giving small capital that creates big livelihoods for our nanays and micro-entrepreneurs. That is community development in its purest form.

Let us all attend, bring a friend, and keep the spirit of fair and constructive dialogue alive.

Yours in Rotary Service,

Jun C. Zafra
High Impact President
RY 2026 - 2027

Rotary Notes

PP Benny P. De Guzman

Long time no show PP Topax suddenly showed up as he and CM/PP Peping hosted the lechon last week. PP Topax, looking slimmer and in better shape than ever, must be in something more interesting to dobout of our fold. Whatever that is, it is surely financially rewarding as Topax is noted for that.

Last Saturday was Double Ten. It is the National Day of Formosa, now known as Taiwan, and for our club, it is the birthday of CM/PP Peping, PP Topax and spouse Lee of PP Vic. For the UP guys, it is the Loyalty Day of UP Los Baños, who pledged their loyalty to the allied forces during World War 2. UP then was just 10 years old when the Los Baños community pledged their support for the entire forces, if needed. What was needed was peace and they were spared from combat.

With some guests being introduced, we are about to induct a couple of new ones to lower our average age, indeed very much needed. There are a handful of very active members who have yet to get their sons in. How about our CMs who may not be even with us now. If CM/ PP Kati cannot rejoin, as he is in his mid 90's, why not a son? Tinig continues to marvel at the dedication of CM/ PP Peping in his wheel chair who is always around for all our meetings and projects. Many others are continuously shying from our meetings. Of those elected to public office, only Cong Roman and Konsi Simon show themselves up every now and then. Mayor Vico and VM Dodot and Pagpupugay sa Kabayanihan ng Pulis Pasig

Rotary Notes

PP Benny P. De Guzman

Continuation 1.

proponent, Chony are practically RINOs but Chony now wheel chair bound has placed our club in the recognition stage.

Our own former member is now the Head of the Eastern Police District. He can be in the active list once again.

The dreaded El Niño is feared by so many. May we be able to get more contributions on how to effectively handle this such as on precautions and actions to be taken?

Congratulations to our PP Adolf for his recent promotions but with initials lang meaning, may importanteng papel na naman sya sa NU NU? Noy You, si Adolf.

Speaking of NU, our PP RJ is expanding the university which eventually may include expansion in major SM malls. This Sampaloc-based university has truly grown. With RJ at the helm, expect more vibrant growth.

The Ilugin Medical project, with so many big co-sponsors, had a tremendously big participants from among The Medical City doctors and the number of patients treated is truly worth our attention to help improve handling of maternal care for our community.

The golf project of our PP Rel has drawn very good support as well, that truly all of us are proud of the reverence of our irreverent club.

As we near our Memorial Day, we recall our many PPs who have gone to the Great Beyond and our many members too. And the many spouses who have joined them.

PP Ramy Garcia IV

Mumbai surgeon will serve as president of Rotary International - 2028-29

Rotary International has confirmed Dr. Bharat Pandya of the Rotary Club of Borivali, Mumbai, as its president-nominee for 2028-29.

NEW DELHI, (Sept. 21, 2026) — Dr. Bharat Pandya, member of the Rotary Club of Borivali in Mumbai, has been confirmed as president-nominee of Rotary International – the association of the membership service organization's 45,000 clubs worldwide – and will begin his one-year term on July 1, 2028.

As president, Dr. Pandya will inspire Rotary's 1.2 million members across continents and cultures to deliver real, long-term solutions to the world's most persistent issues, while developing leadership through meaningful connections.

Among his priorities will be to oversee Rotary's top goal of ending polio. Alongside its Global Polio Eradication Initiative partners, Rotary has achieved a 99.9 percent reduction in polio cases and contributed more than US$3 billion and countless volunteer hours to protect more than 3 billion children from this paralyzing disease.

Dr. Pandya's story with Rotary began as the only doctor in his newly chartered club in 1989, when he was handed responsibility for the local pulse polio immunization drive. He set up ten immunization centres and personally went door-to-door administering the oral polio vaccine to children.

Walking the Avenues

PP Ramy Garcia IV

Continuation 1.

That experience became part of a longstanding commitment to polio eradication. Decades later, Pandya served on the India National PolioPlus Committee (2011-15), the committee overseeing the final push that led to India — once considered the world's hardest place to defeat the disease — being declared polio-free in 2014.

Dr. Pandya's professional career as a surgeon has shaped his approach to leadership. After earning his undergraduate and postgraduate medical degrees from Seth G. S. Medical College and King Edward Memorial Hospital in Mumbai, he has been practicing as a general and laparoscopic surgeon for 38 years.

“Being a surgeon has profoundly influenced the way I lead,” Dr. Pandya said. “In surgery, decisions are based on analysis, knowledge, evidence, boldness and integrity. I have carried this forward to Rotary. I often talk about three phases in life: learn, earn and return. Rotary gave me the chance to return, even while I was still earning. I’ve gotten far more from this organization than I could ever give back — and now I intend to keep giving. To me, the essence of Rotary can be captured in two words: hope and opportunity. Hope that a newborn child will be protected from polio through Rotary’s polio eradication efforts, hope that our communities can be made better — and the opportunity we have as Rotarians to fulfill that hope.”

Dr. Pandya follows Indian Rotary leaders who have served as Rotary International president, Nitish C. Laharry (1962-63), Rajendra K. Saboo (1991-92), Kalyan Banerjee (2011-12), and Shekhar Mehta (2021-22).

Our Guest Speaker

Engr. Mark P. Torres

Engr. Mark P. Torres is a prominent Filipino civil engineer and public official who currently serves as the Officer-in-Charge Senior Vice President for the Conversion and Development Group at the Bases Conversion and Development Authority (BCDA).Given your previous question, he is highly relevant because he is one of the key government figures overseeing the infrastructure planning and development for the Pax Silica Industrial Hub, which is slated to be built on BCDA property in New Clark City, Tarlac.Key Responsibilities & ProjectsNew Clark City Development: Engr. Torres leads the BCDA team responsible for transforming New Clark City into a smart, green, and sustainable tech metropolis, which includes setting up the framework for the massive 1,620-hectare Pax Silica ecosystem.Foreign Partnerships: He actively manages talks with international developers and tech firms (such as South Korean infrastructure companies) to secure sustainable energy, water, and transport links required for these high-tech industrial zones.Transportation & Infrastructure: In his long tenure with the BCDA, he has served as a project team leader and investment officer, notably implementing the Clark Loop mass transit system and contributing to major projects like the Subic-Clark-Tarlac Expressway (SCTEX) and the Bonifacio South Main Boulevard.Role in the Pax Silica DiscussionAs a top BCDA official, Engr. Torres represents the operational side of

Our Guest Speaker

Continuation 1.

the project. While politicians debate the geopolitical impact, Torres and his department are tasked with the practical challenges raised by critics specifically ensuring the industrial hub has the massive water infrastructure and sustainable power grid required for wafer fabrication and chip design without draining local resources.Would you like to know more about the infrastructure challenges BCDA faces with the Pax Silica hub, or are you interested in other key officials involved in the project?

Usapang Pang Kalusugan

By: HOF/PP Jess Acantialdo

Lung Cancer

Primary lung adenocarcinoma can develop in a lifelong nonsmoker. At age 75, treatment and prognosis depends mainly on the cancer stage, molecular mutations and functional status. Age alone does not rule out effective treatment. “Primary” means the cancer originated in the lung and it does not mean early stage.

How does a nonsmoker develop it?

Adenocarcinoma is a type of non-small cell lung cancer arising from glandular epithelial cells, often in the peripheral lung. It develops when acquired DNA changes allow cells to multiply uncontrollably. These changes accumulate with aging and may occur even without a recognizable exposure.

- Environmental risks: Secondhand smoke, radon, air pollution, diesel exhaust, asbestos and certain occupational carcinogens.
- Genetic susceptibility: Family history may contribute, but most mutations found in the tumor are acquired rather than inherited.
- No identifiable cause: Many never-smokers have no clear exposure explaining their cancer. It cannot reliably be attributed to one event or lifestyle choice. It is not contagious.

What must be established before treatment?

Usapang Pang Kalusugan

By: HOF/PP Jess Acantialdo

Continuation 1.

The essential information is where it has spread and what is driving its growth:

- Staging: CT imaging, often PET-CT, appropriate brain imaging and lymph-node sampling when indicated.
- Tumor testing: Broad molecular profiling, including EGFR, ALK, ROS1, RET, MET, BRAF, KRAS, NTRK, and HER2 and also PD-L1 testing.
- Treatment fitness: Daily functioning, frailty, lung reserve, renal function, cardiac disease, nutrition and patient goals. In a never-smoker, molecular testing is especially important because an actionable mutation may permit targeted treatment.

Treatment depends on stage and disease extent

Usual Treatment Approach

Stage I, confined to lung
Surgery with lymph-node assessment if fit. Stereotactic body radiotherapy or SBRT offers treatment with curative intent when surgery is unsuitable.

Stage II or selected resectable stage III
Surgery combined with systemic treatment. Chemotherapy, immunotherapy or targeted therapy depends on stage and biomarkers.

Unresectable stage III

Chemoradiation if fit, followed by appropriate consolidation treatment. Biomarkers influence whether this is immunotherapy or targeted therapy.

Usapang Pang Kalusugan

By: HOF/PP Jess Acantialdo

Continuation 2.

Stage IV, metastatic
Systemic treatment to control disease, prolong survival, and relieve symptoms. Targeted therapy is preferred when an appropriate actionable mutation is present. Otherwise, immunotherapy with or without chemotherapy is selected according to PD-L1 and fitness.

Examples include osimertinib-based treatment for common sensitizing EGFR mutations and ALK inhibitors for ALK-positive disease. Without an actionable driver, a common adenocarcinoma regimen is pembrolizumab plus pemetrexed and a platinum agent. The exact regimen requires the molecular results; nonsmoking status alone does not determine treatment.

Like Pope Leo, a robust, independent patient may still tolerate surgery or systemic therapy. Frailty or substantial comorbidity may favor SBRT, modified systemic treatment, or symptom-focused care.

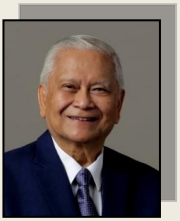

Prognosis
Early disease may be curable. Metastatic disease is usually treated for long-term control rather than cure, although some patients with responsive molecular targets live for several year.

For this patient, the most useful details are the TNM stage, any brain/bone/liver or pleural involvement, EGFR and other molecular results, PD-L1, and whether the patient remains independently active. Without those, a specific life-expectancy estimate would be unreliable.

LEGAL CORNER

By Atty. Celso Ylagan II

In ***Republic of the Philippines v. Spouses Leon Silim and Ildefonsa Mangubat,*** **G.R. No. 140487, April 02, 2001,** the Supreme Court has ruled that the donation made was validly accepted, even if the acceptance was not noted in the deed of donation so long as the donor had actual knowledge.

Facts:

In 1971, the spouses Leon Silim and Ildefonsa Mangubat donated a 5,600 sqm parcel of land to the Bureau of Public Schools (BPS) in Malangas, Zamboanga del Sur. The donation was subject to the condition that the land would be used "exclusively and forever for school purposes." Later, the BPS exchanged the donated lot for a larger lot for school construction. When the Municipal Vice Mayor built a house on the original donated land, the Spouses filed a complaint for revocation/cancellation of the donation against the Republic of the Philippines before the lower court. The complaint was subsequently dismissed for lack of merit, as the exchange was valid since it still served school purposes.

Ruling:

The Supreme Court held there was valid acceptance of the donation, even if the acceptance was not noted in the deed of donation. In this case, a school building was immediately constructed after the donation was made. The actual knowledge by the donors of the construction of the school building fulfilled the legal requirement that the acceptance of the donation by the donee be communicated to the donor. The exchange of the lot did not violate the condition. It was still for school purposes and even enhanced the fulfillment of the donor's intent.

Directors Corner

By: Dir. Mads Bengua

Another successful and well-attended event by the TMC IWH Community Program has concluded.

The Ilugin Community Medical Mission 2026 served 252 women (87 OB and 165 Gyne patients) for 6.5 hours of simultaneous didactics, breast and cervical cancer screening, anemia and osteoporosis screening, obstetrical and gynecological ultrasound. There were 3 patients who underwent thermal coagulation, 3 IUD removal, 100 patients for anemia screening, and 218 patients for bone scan.

We are grateful to our partners for the past 11 years, The Rotary Club of Pasig and Kalusugan ng Kababaihang Pangkabayanan (KnKPInc) headed by Dra. Connie Alfiler, for their unwavering support to our program. We are equally thankful to our sponsors who made this activity possible, NPK, Allied Medical Supplies (c/o Dr. Richelle Pascua), Unilab, BBraun, DKT, Distriphi Philippines, Multicare, Tau Gamma Phi and Tau Gamma Sigma Matanza Pinagbuhatan.

Our deepest gratitude to our dear IWH staff, OBGYN consultants and sonologists, our dear fellows and residents, ASMPH interns and clerks, Ilugin Clinic health workers and everyone who in one way or another contributed their precious time (on a Sunday) and selfless efforts to make a difference in the lives of the 252 patients who we served happily today.

Maraming Salamat po. God bless everyone!

Schedules of Activities

October:**
Economic and Community Development Month

- Aims to enhance economic growth and community development.

October 1 - Gov. Montalla's Official Visit
October 3 - Octoberfest (Metro Tent)
October 4 - Med.Mission with Medical City at Ilugin
October 8 - Dean Giovanni A. Tapang (Pax Silica) Cons
October 15 - BCDA Engr. Mark Torres- Pros
October 22 - Golf Event (PP Rel)
October 29 - Memorial Mass for departed RCP loved ones- Fr. Kell

November:**
Rotary Foundation Month

- Celebrates the work and impact of the Rotary Foundation.

November 5 - Babes Singson c/o PP Doddy
November 12 - Sen. Sonny Trillanes-6PM
November 19 - Pros & Cons of AI by PP Garick, PP Bong & Dir. Jake O
November 26 - Franciscan Priest to tackle on Advent

December:**
Disease Prevention and Treatment Month

- Focuses on efforts to prevent and treat diseases.

December 2 - RCP Christmas Party- VV1

Schedules of Activities

Continuation 1.

December 10 - Club Assembly & Elections
December 17 - Gift Giving sa GK Vill. & Ilugin
December 24 - Gift Giving / Rizal Medical
December 25 - Christmas Day

These themes provide Rotary clubs the opportunity to align their service activities with the broader objectives of Rotary International

ROTARY CODE OF CONDUCT

As a Rotarian, I will

1. Exemplify the core value of integrity in all behaviors and activities
2. Use my vocational experience and talents to serve in Rotary
3. Conduct all of my personal, business, and professional affairs ethically, encouraging and fostering high ethical standards as an example to others
4. Be fair in all dealings with others and treat them with the respect due to them as fellow human beings
5. Promote recognition and respect for all occupations which are useful to society
6. Offer my vocational talents: to provide opportunities for young people, to work for the relief of the special needs of others, and to improve the quality of life in my community
7. Honor the trust that Rotary and fellow Rotarians provide and not do anything that will bring dis-favor or reflect adversely on Rotary or fellow Rotarians
8. Not seek from a fellow Rotarian a privilege or advantage not normally accorded others in a business or professional relationship

DECLARATION OF ROTARIANS IN BUSINESS AND PROFESSIONS

As a Rotarian engaged in a business or profession, I am expected to:

1. Consider my vocation to be another opportunity to serve;
2. Be faithful to the letter and to the spirit of the ethical codes of my vocation, to the laws of my country, and to the moral standards of my community;
3. Do all in my power to dignify my vocation and to promote the highest ethical standards in my chosen vocation;
4. Be fair to my employer, employees, associates, competitors, customers, the public and all those with whom I have a business or professional relationship;
5. Recognize the honor and respect due to all occupations which are useful to society;
6. Offer my vocational talents: to provide opportunities for young people, to work for the relief of the special needs of others, and to improve the quality of life in my community;
7. Adhere to honesty in my advertising and in all representations to the public concerning my business or professions;
8. Neither seek from nor grant to a fellow Rotarian a privilege or advantage not normally accorded others in a business or professional relationship.
